## EDUCATION

### Graphic Era University

Bachelor of Technology, Computer Science, GPA: 8.73

Dehradun, UK

2020 - 2024

## WORK EXPERIENCE

### Data Engineer at Genpact

Business Analyst Gen-AI

Bangalore, KA

Oct 2024 – Current

- **Spearheaded the end-to-end migration** of mission-critical ETL pipelines from PostgreSQL (Greenplum) to **SparkSQL and PySpark** on **Databricks**, improving job runtimes by 80% via logical flow enhancements.
- **Modernized the Enterprise Data Lake (EDL)** by transitioning sources from PowerNow 1.0 to 2.0, ensuring architectural consistency and zero data loss for global operations.
- **Owned the development of backend architecture** for Business Objects (BO) reports integrated with **Oracle ERP systems**, streamlining complex reporting for key business stakeholders.
- **Orchestrated robust workflows** using Apache Airflow and Databricks native features to ensure scalable, production-grade data processing.
- **Engineered Gen-AI and RAG systems** using Python to automate insight generation and improve data discoverability within the data ecosystem.
- **Maintained the GSC Bowler** (Global Supply Chain) performance-tracking system, ensuring the integrity of high-fidelity data for critical supply chain KPIs.
- **Collaborated across cross-functional teams** to streamline migration across Ingestion, Transformation, and Visualization layers.

### Internship at Genpact

Data Analyst and Gen AI Intern

Hyderabad, TL

Feb 2024 – July 2024

- **Developed a Python automation script** using **LangChain** to generate summaries of 10-K financial reports, resulting in an **85% speedup** compared to existing manual solutions.
- **Built a Financial Health Dashboard** for Consumer Banking using **Power BI**, providing a comprehensive overview of income and spending with automated goal suggestions.
- **Performed data preprocessing and cleaning** to extract actionable insights for banking sector stakeholders.

### Internship at Defense Research and Development Organization (DRDO)

Android Development and Security Intern

New Delhi, DL

Jul 2023 – Aug 2023

- **Developed a background Android application** using Kotlin and Jetpack Compose to capture & forward system notifications via SMS.
- **Conducted security analysis** using MobSF (static and dynamic), identifying critical flaws and reducing total testing time by 70%.
- **Implemented real-time logging** and system-level API integrations (SmsManager) for secure notification monitoring.

## PROJECTS

### Loocle – A Self-Hosted Photo Backup and Web App (Google Photos Inspired)

- **Engineered a cloud-independent photo management system** replicating the Google Photos experience on local hardware.
- **Built a Python Flask web app** with fast metadata-based search, caching, and multi-shot facial recognition features.
- **Automated wireless Android backups** using ADB over Wi-Fi for seamless syncing between devices.
- **Implemented automatic metadata tagging using Local LLMs using Ollama** to associate detected faces with person names, enhancing organization and quick retrieval.

## ACHIEVEMENTS

Top 50 in Coursera's first Employment Hackathon

Online - Jan 2023

3rd Position in Intel's OneAPI Hackathon - Machine Learning, SYCL Programming

IIT Roorkee, UK - Mar 2023

## ADDITIONAL

**Technical Skills:** Python, Flask, Apache Spark, Apache Airflow, Databricks, SQL, AWS, REST APIs, C++, Kotlin, Microsoft Power BI, Excel, Generative AI (LangChain, RAGs, Ollama), Machine Learning, Automation Scripting

**Domains & Concepts:** System Design, Backend Development, RPA Concepts, ETL Pipelines, Data Engineering, Cloud Infrastructure, Facial Recognition, Computer Vision

### Certifications & Training:

**Databricks** - Data Engineer - Professional, Data Engineer - Associate, Generative AI Engineer - Associate,

**AWS** - DEA-C01 Certified Data Engineer - Associate, CLF-C01 Certified Cloud Practitioner, **Microsoft** - AI-900 Azure AI Fundamentals

**Languages & Interests:** English (Fluent), Hindi (Fluent) | Fast Touch Typing (172 WPM, Top 7%), Reading, PC Gaming, Beatboxing
